Am sorry to say the host of the program is out of place and very unreasonable. Just to let you know that we all have different levels of intelligence so you need to accommodate this guy or else you will be driving away people from your program. Rather try to find means to bring this woman to justice.

Am disappointed in the presenters n the callers insulting him.even though he will not get his money back.all this is happening because of the media allowing such a fraudster on TVs n radio making advert.our police n the IGPs know about this woman,but they are not doing anything about it because she gives them some of the money.also most of the chief knows about this woman n they know very well that she has nothing or so called powers n they're all quite about it.if this woman don't stop with what she's doing to people,someone will shot n kill her like an animal.including his so called bodyguards.the police at her area knows that she's a thief and they have also kept mute,because of 2gh and 5gh.

Those insulting the guy should stop ,stop insults ,you don't know pressure on people !!! Don't you know that both old and Young respect money more than moral,in our societies today if you are a guy and you don't have money you will not be recognized again Ghana Today if you get a case and you don't have money,you will automatically loose,if you don't have money today in Ghana you will even not have a chance to meet powerful Man of God,For Example if a get a case with
